

DAVE BEEGLE

ACOUSTIC MAYHEM

"Like Jimmy Page, Brian May and Tom Scholtz, Dave Beegle is a one-man guitar army. A very clever player." ...GUITAR MAGAZINE

Dave Beegle has been providing a world-class delivery of both electric and acoustic guitar performances for more than twenty-five years. A highly versatile and melodic player, Dave has released three cds with his band Fourth Estate, three solo cds, and has been involved in hundreds of recordings as a session guitarist, producer and engineer. Dave's broad base of experience makes him one of the most in-demand producers and musicians in the greater Rocky Mountain region, as well as a much respected recording artist and live performer.

In my opinion, Dave Beegle is one of the most creative and accomplished guitarists I've met. Dave is one of my favorite players and deserves to be seriously listened to and appreciated."

Dave's playing is simply stunning. In fact, he has to be one of the best all-around guitarists out there today. His feel is excellent, his timing is killer, and

his tones are masterful - In other words, you gotta check this guy out to believe it!" ...HHGI Online
